

Ranger Foundations & Ranger Safety Update

In order to simplify and streamline the methods by which Ranger Foundations and Ranger Safety may be completed, these training courses will now only be available for completion in the following two formats:

- Online
- District Class

ONLINE FORMAT

1. Complete all sessions online.
2. Review questions/quiz will be provided at the end of each session.
3. Trainees have 6 months to complete all sessions.
4. Upon completion, a certificate will be available for download from the online training system for use as verification of completion.
5. Information for ordering the patch from the national office will also be provided.

CLASSROOM FORMAT

1. All sessions are presented in a classroom setting.
2. Video presentations are used for all sessions (same videos as used online).
3. Classes are led by a facilitator who will lead the class in a brief review of the content at the end of each video by use of review questions provided in the facilitators guide. The facilitator must be a Certified Instructor, or may be an individual approved by his District Training Coordinator to facilitate that specific class.
4. The District Training Coordinator (or his designee) must be involved in the process of establishing & promoting the class to ensure all the necessary standards are followed, all records are collected, and the latest training materials are being used (verified by contacting the national office). However, this person is not required to be on site during the class.
5. Videos may be streamed via the online training system or downloaded by the facilitator and shown offline if preferred to avoid potential internet connection problems at the class location.
6. The registration process as well as all fees & expenses will be handled by the district.
7. The district must provide a report to the national office listing all graduates and date of completion.
8. The district is free to charge whatever fees they choose for these classes based on the materials and services provided (meals, snacks, printed notebooks, certificates, patches, etc.) but must pay the following fees to the national office for each trainee when submitting the class report.
 - a. Ranger Foundations - \$20.00
 - b. Ranger Safety - \$5.00
