

## Academy Application Process

Before receiving a National or Advanced Academy application and other documents associated with the application packet, a candidate must first submit an NA or NAA Pre-Test application signed by his Regional Training Coordinator (AA) or District Director (NA), and then earn a passing score on his corresponding Pre-Test. These are the applications available for download under the event's listing on the National Training Events page on the National Royal Rangers website.

After the National Royal Rangers Office has been notified of a candidate's passing Pre-Test score, the candidate will be emailed an application packet. The registration fee for the National Academy or Advanced Academy the candidate plans to attend will be listed on the application, and will be payable by check or credit card. Payment will be required when submitting the application packet, and must be submitted by the deadline specified on the application in order to qualify for the Early Registration Discount Rate.

In the instance that more than one National Academy & Advanced Academy is scheduled in a calendar year and more than one event is listed on the RR website, please be advised that the registration fees may be different for each NA & AA event scheduled. This is because training event pricing is done event by event, as facility rental fees and costs for food, supplies, staff travel, and other costs will vary based on the event's location.

If you would like to confirm the registration fee for the specific National Academy or Advanced Academy you intend to apply for before starting the Pre-Test application process, please email [rrtraining@ag.org](mailto:rrtraining@ag.org) with a specific request for this information.

Thank you for your interest in National Academy or Advanced Academy.
